

L2122

Ink Elegant Pavilion

L2122 Instruction manual

NOTICE OF ASSEMBLE

Tips for assembling

1. Because this product contains small parts, children need to use this product with an adult to avoid accidental ingestion and cause suffocation hazard.
There are sharp objects in the product, be careful not to pierce people to avoid injury.
2. After all the materials are used in the required amount in the operation steps, put the remaining materials back into the original bag until the installation is completed.
(Avoid losing materials during the installation process)
3. The unit of dimension marked in the step diagram is "cm".
4. Tips for making template paper: Put the template on the back of the material, fix it with some small double-sided tape, and then cut out the material to prevent the cloth or template from moving in the cutting process, or causing errors in the cut material. Or lead to insufficient materials.
5. According to the "Parts Rule Example" at the bottom of this page, refer to the parts on the part number drawing, find the actual product and compare it with the bill of materials, and then install it after confirming that it is correct. (Wooden parts only)
6. It is not advisable to apply too much glue, so as not to wait for a longer time to dry, and overflow will affect the effect of the finished product.
7. There are unavoidable small deviations in the color of wood, fabric, and beads of different batches, without notice, thanks for understanding.

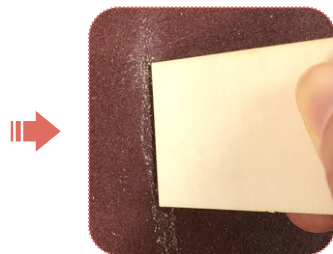

Tips for Assembling Wood

Find the corresponding block number, use a knife in the connection point gently press, you can take out the wood.

Use a knife to smooth out the burr.

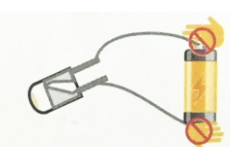

Or use sandpaper to smooth out the burr

Testing on LED function

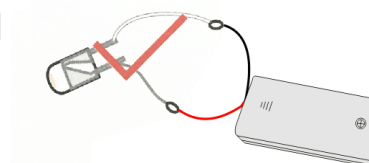

Be sure to test the LED lights before making the lighting, note that the LED white wire to the negative, gray wire to the positive reference to the following figure operation test.

1

DO NOT contact the LED wire end direct to the battery cell.

2

Use the provide battery holder. Make sue the correct polarity.

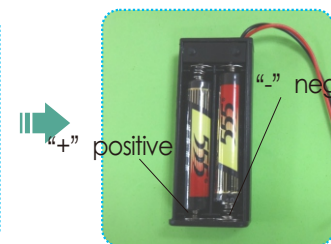

How to assemble the battery holder

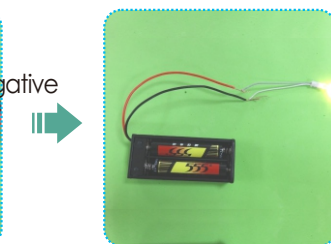

1. Material and tools needed:
- Battery holder, LED bulb, tape, screw driver and 2 pieces AAA size battery(not provided)

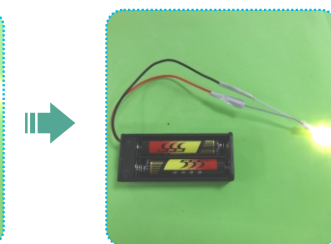

2. Use screw driver and take the lid off from the battery holder.

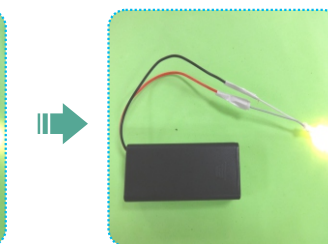

3. Insert the battery take notes on the polarity.

4. Connect the red wire to grey wire. Connect the black wire to white wire.

5. Wrap the exposed wire with the tapes.

6. Place the box lid and fastness with screw driver.

Examples of parts rule:

A01: The parts are directly in the box; B01: The parts are in the B bag; C01: The parts are in the C bag, and so on (Note: The printing paper is displayed in the step A19-01: The printing paper is placed directly in the box, The part number is A19-01. In the step, the template paper A20-P01 is displayed, A20 is the template paper, P01 is the cutting template used for the corresponding material, P01-01, P01-02 are the part numbers for the parts, and the printing paper and template paper are directly placed in the packaging box.)

Symbol description used

About the use of glue

Method for using glue:

1. After applying the glue, let it dry for a few seconds before pasting.
2. Fix it slightly with your hands, and finally put it aside to dry;

Tips:

When pasting the plane printing paper, a piece of waste bank card or telephone card can be used to wipe evenly after the glue is smeared on the wood board, and then the printing paper is pasted to squeeze out the air inside.

Types of glue:

White latex: Used for adhering soft materials, such as wood and paper.

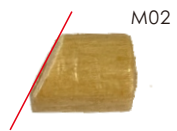

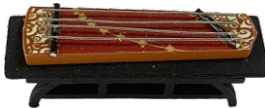

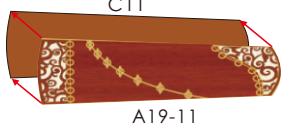

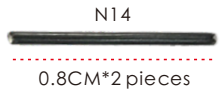

Alcoholic Glue: Used for adhering hard materials such as cloth, plastic, beads, wire, dust cover, etc.

*Tips for cutting and making template paper: Put the whole template on the back of the material, fix it with some small double-sided tape, and then cut out the material to prevent the fabric or template from moving during the cutting process, or cause errors in the cut material. Or lead to insufficient material.

*Tips for cutting and making template paper: Put the whole template on the back of the material, fix it with some small double-sided tape, and then cut out the material to prevent the fabric or template from moving during the cutting process, or cause errors in the cut material. Or lead to insufficient material.

*Tips for cutting and making template paper: Put the whole template on the back of the material, fix it with some small double-sided tape, and then cut out the material to prevent the fabric or template from moving during the cutting process, or cause errors in the cut material. Or lead to insufficient material.

Flip to the back and install the hot spring pool

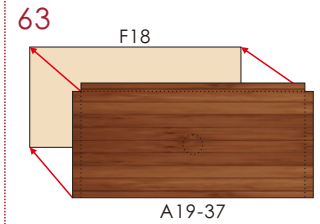

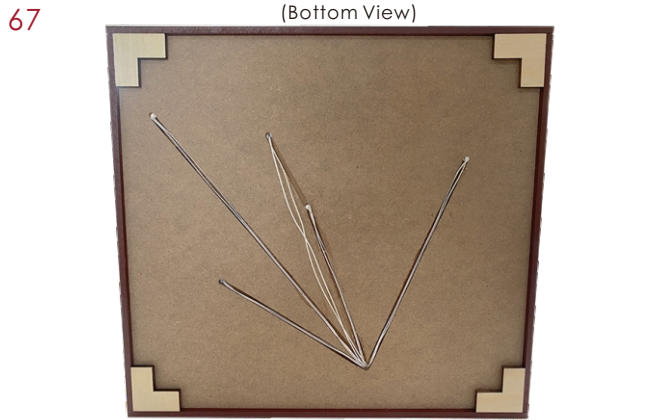

Paste the base of the first floor with reference to the reference line of the floor, pay attention to pass the lamp wire through the corresponding round hole first.

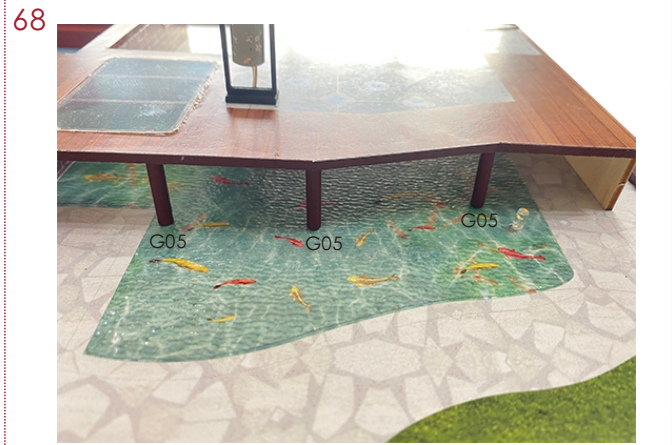

Be careful not to stick the light wire of the transparent light tightly, so that it can be stretched and used later.

Add R01 to the corresponding sides

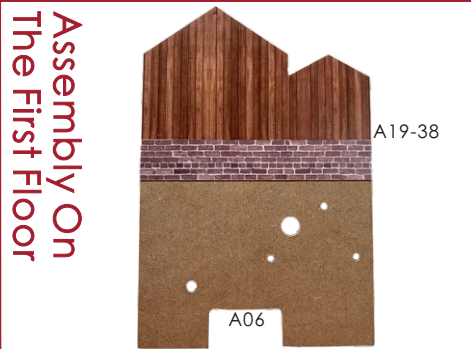

Hide the light wire in the groove (Be careful not to stick the light wire of the transparent light tightly, so that it can be stretched and used later)

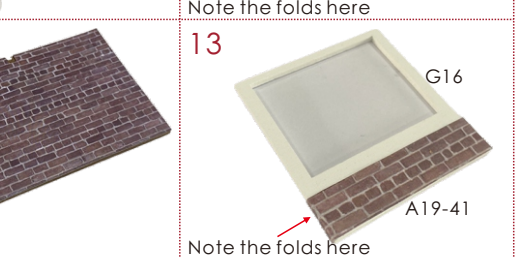

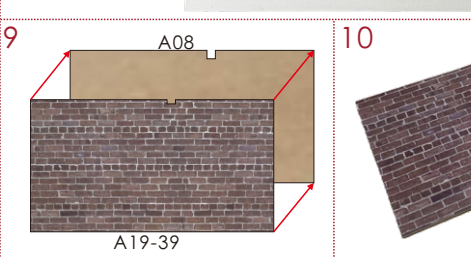

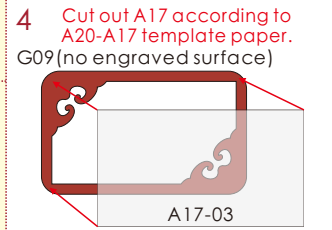

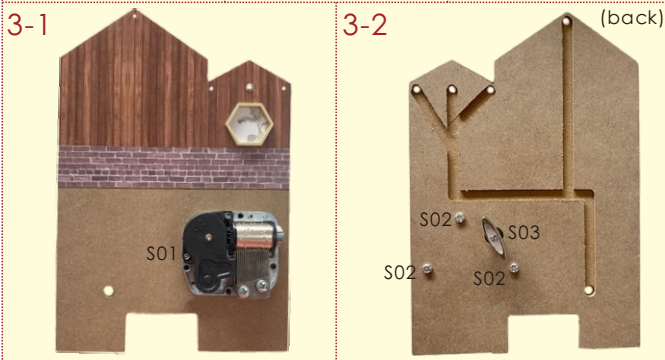

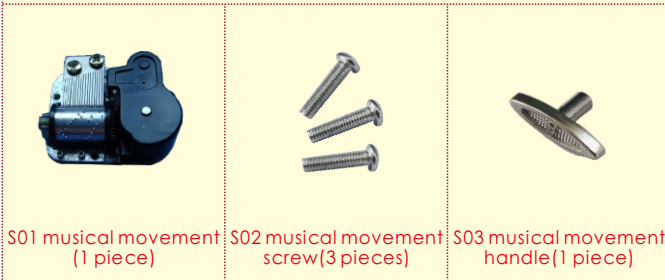

Add G05 with reference to floor reference line

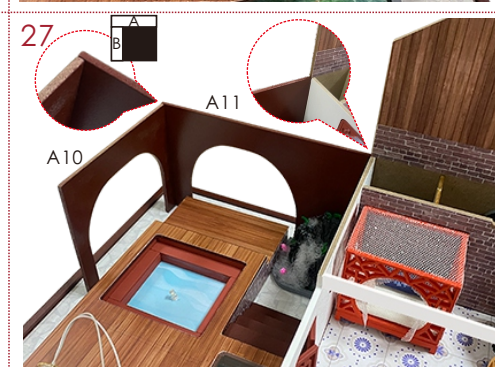

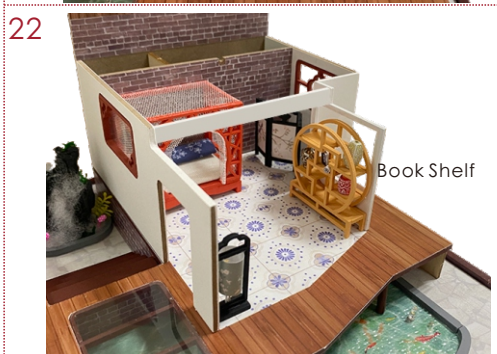

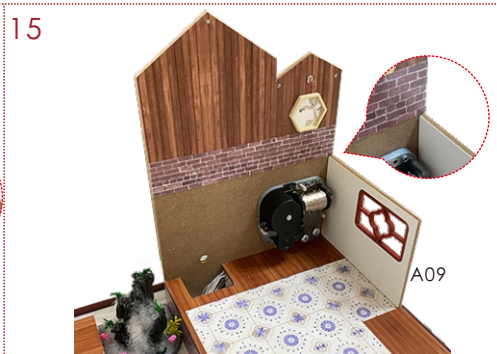

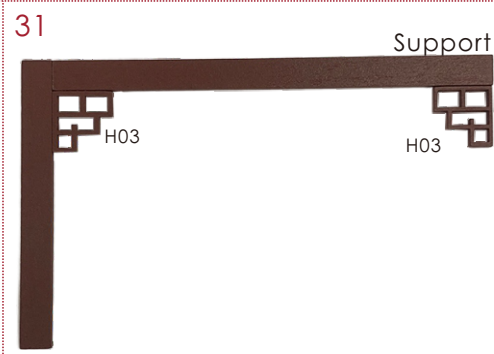

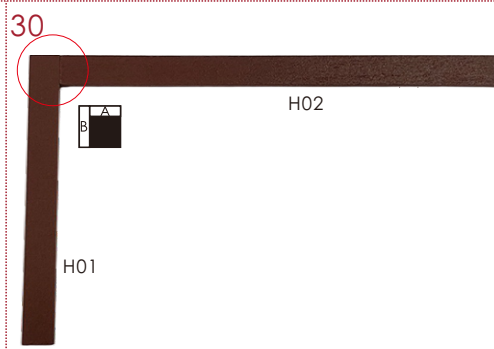

*Tips for cutting and making template paper: Put the whole template on the back of the material, fix it with some small double-sided tape, and then cut out the material to prevent the fabric or template from moving during the cutting process, or cause errors in the cut material. Or lead to insufficient material.

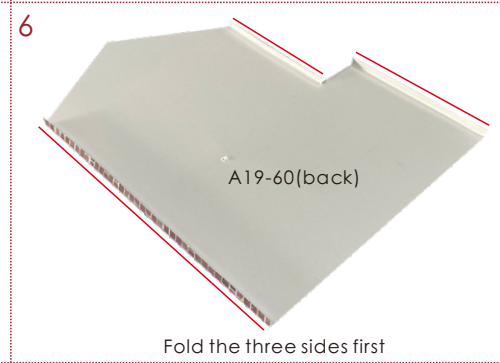

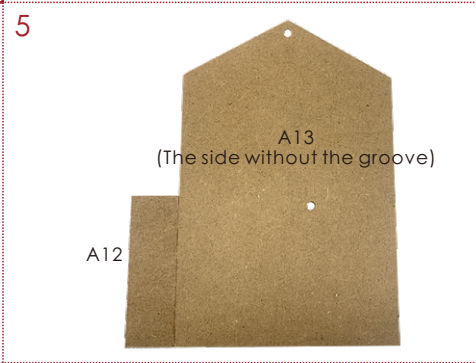

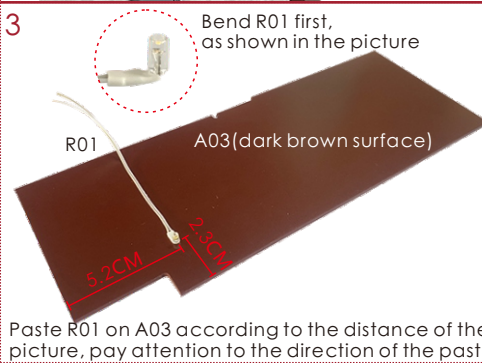

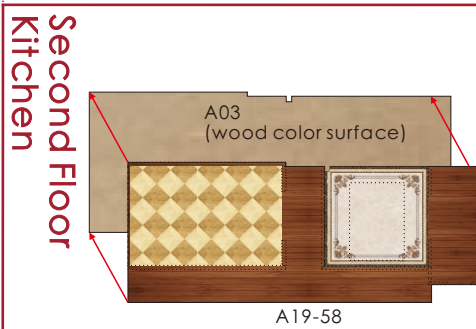

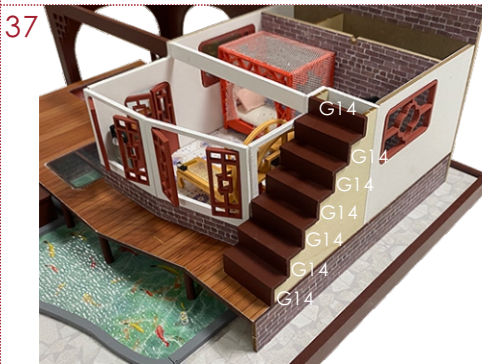

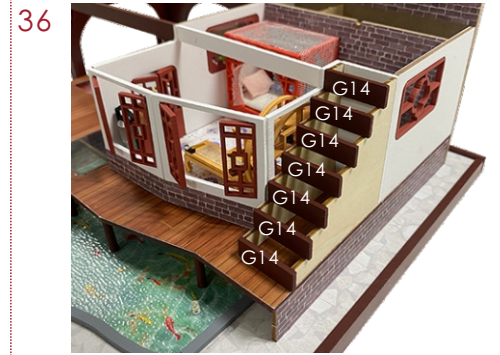

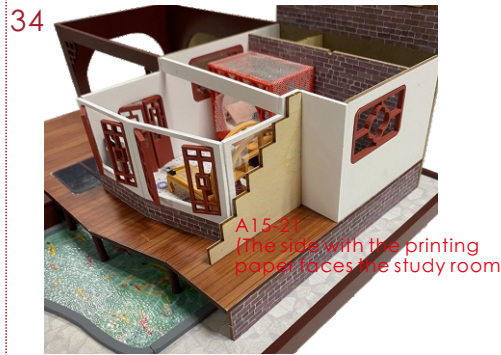

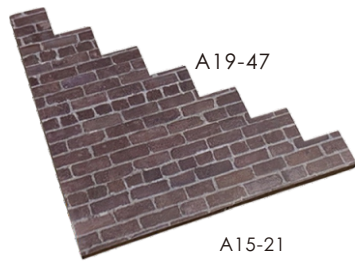

3 Upgraded accessories (Need to purchased separately)

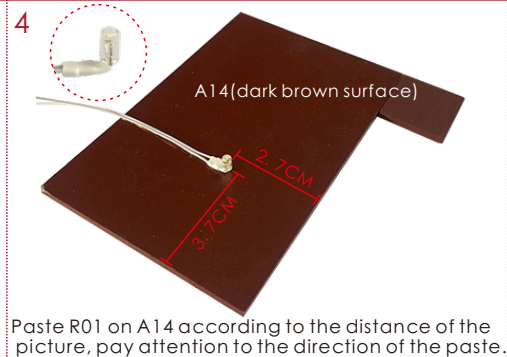

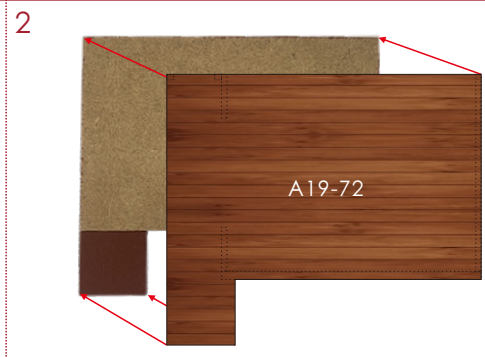

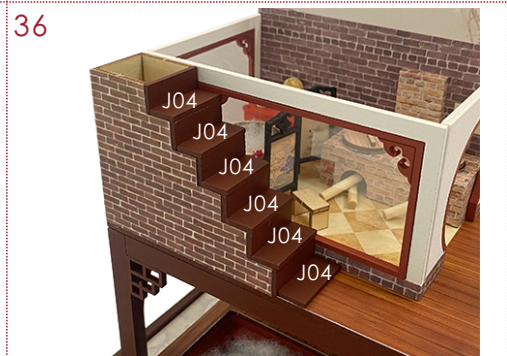

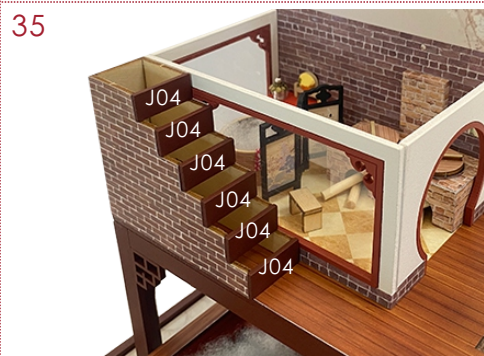

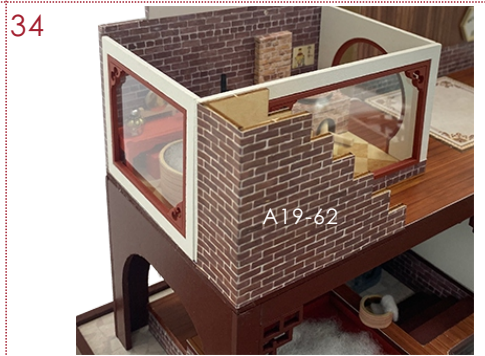

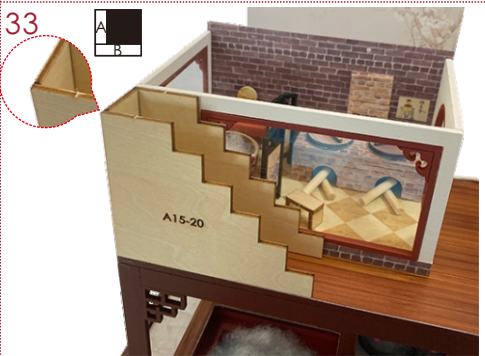

33 Please pull out A15-21 in A15 before making

*Tips for cutting and making template paper: Put the whole template on the back of the material, fix it with some small double-sided tape, and then cut out the material to prevent the fabric or template from moving during the cutting process, or cause errors in the cut material. Or lead to insufficient material.

Make 2 pieces in the same way

Put 2 pieces of A15-13 side by side
In the same way, make 2 group

Note the folds here

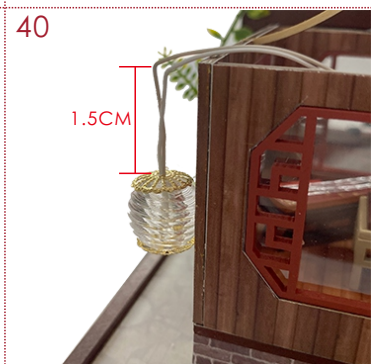

PVC side facing inward

Please be careful not to stretch the light wire of the transparent lamp excessively. Avoid short ends

Align the A15-13 with the buckle, as shown in the picture

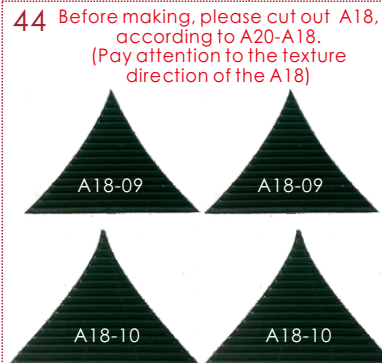

Refer to the size in the picture, bend the light wire first

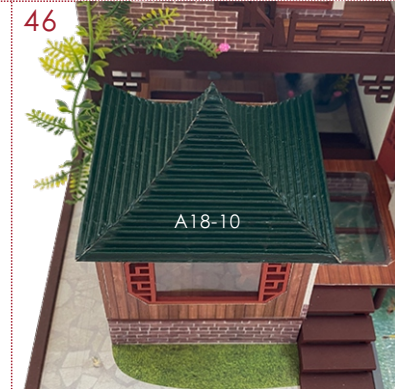

Paste the light wire along the skeleton, as shown in the picture

Glue the light wire along the wall

Paste A18-09 symmetrically along the skeleton

Courtyard Layout

Before making, please cut out all the wood grains in L02

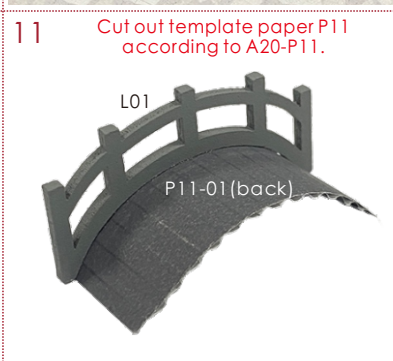

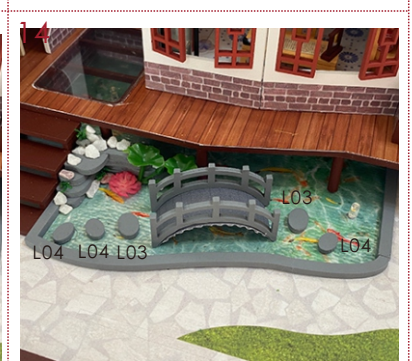

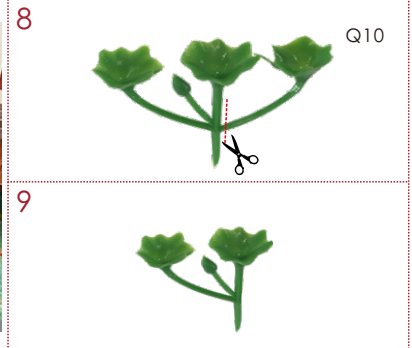

Pay attention to the splicing direction

Add appropriate amount of Q17 as photo

Add appropriate amount of Q15 as photo

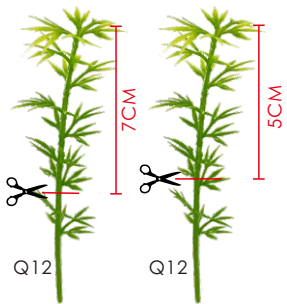

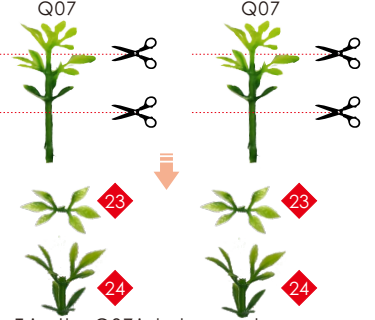

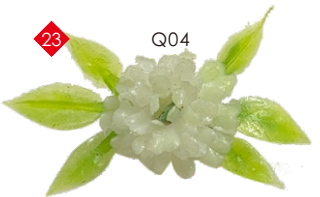

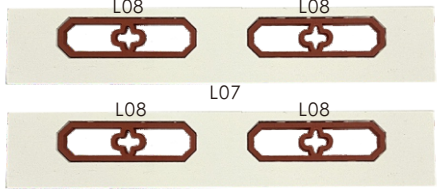

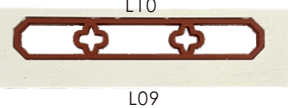

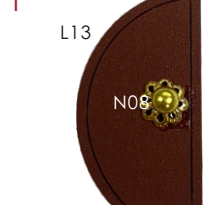

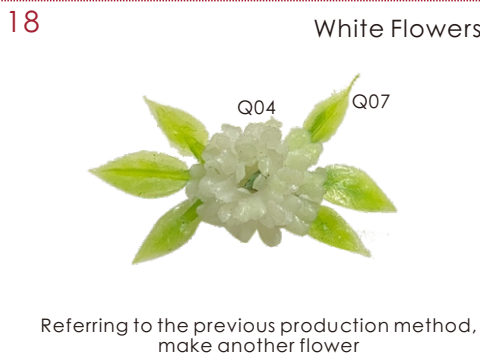

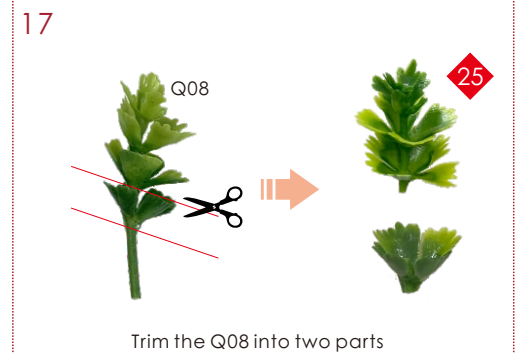

Cut out the leaves of Q11, add them as shown in the picture

Cut out the A19-71 and add it in place

How to assemble the battery holder

Hide the light wires on the back into the grooves

1 Pass the light wire through the round hole and make sure all the light wire comes out of the opening

2 Before pasting A19-73, twist out S03

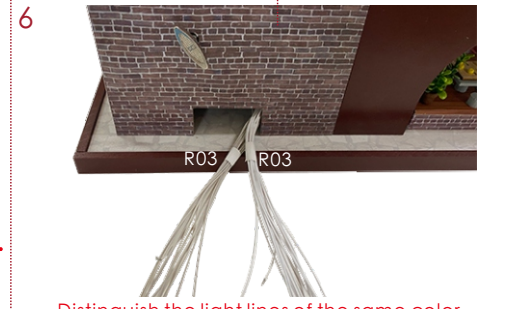

Note the folds here

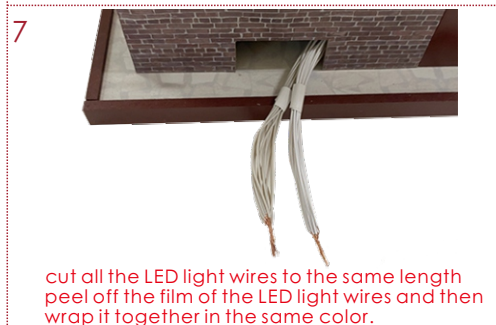

A19-76

5 **Statement:**
the lamp wires cannot be inserted into the output socket.

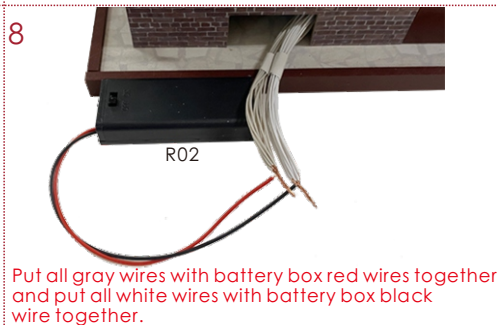

- - Can use 2*AAA batteries
- - Please notice the place of anode and cathode when pit in the batteries
- - Rechargeable batteries are not blunt electricity
- - Rechargeable batteries can only be charged under adult supervision
- - Rechargeable batteries should be removed from the toy before charging
- - Different types of batteries cannot mix; Do not mix new batteries in use with semi-used batteries.
- - Run out of battery should be removed from the toy
- - The power shall not be short circuit

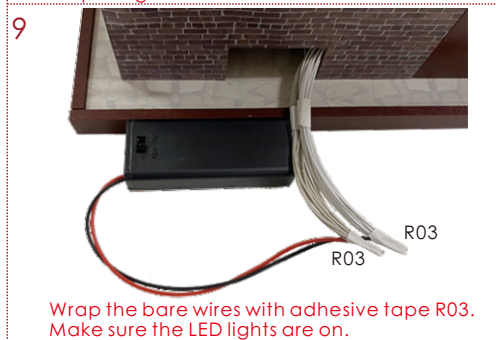

Distinguish the light lines of the same color.

7 cut all the LED light wires to the same length peel off the film of the LED light wires and then wrap it together in the same color.

8 Put all gray wires with battery box red wires together, and put all white wires with battery box black wire together.

9 Wrap the bare wires with adhesive tape R03. Make sure the LED lights are on.

Installation of dust cover

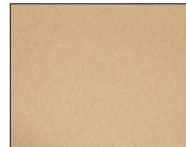

Dust cover
(Upgrade version accessories need to be purchased separately)

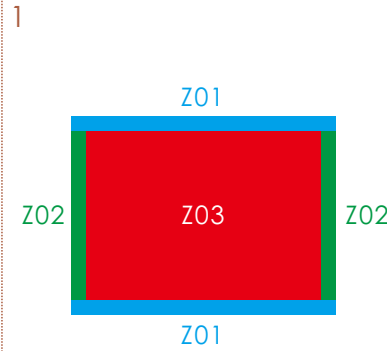

ratio:1:10
Z01 plexiglass(transparent)
29*25.5*0.18(2 pieces)

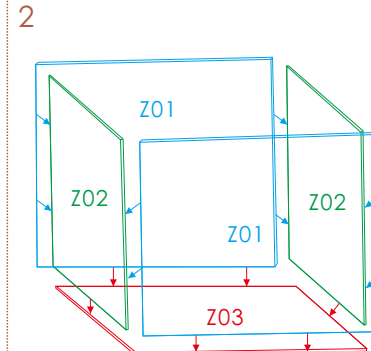

ratio:1:10
Z02 plexiglass(transparent)
26.64*25.5*0.18(2 pieces)

ratio:1:10
Z03 plexiglass(transparent)
29*27*0.18(1 pieces)

stick Z01 and Z02 on Z03

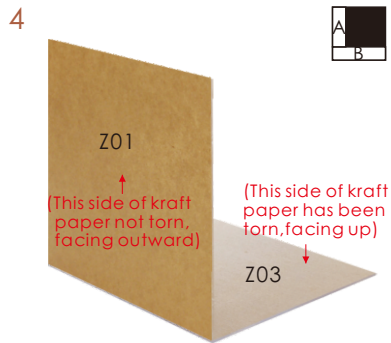

stick five pieces of plexiglass dust cover as shown

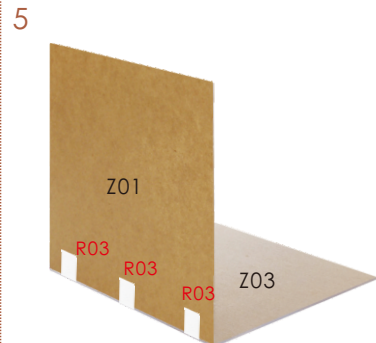

Ripped one side of kraft paper, leaving one side of kraft paper

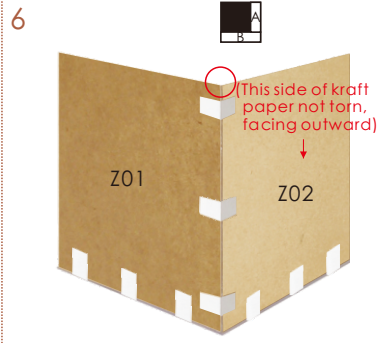

Take out the plexiglass and tear off the kraft paper with text on each piece of plexiglass

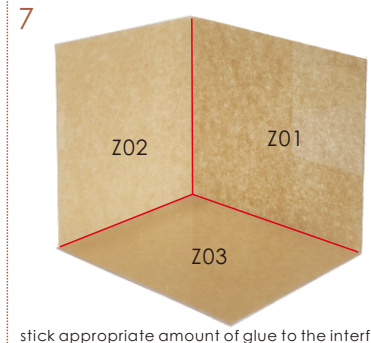

The kraft paper that has been ripped off faces inwards, and the kraft paper that has not been ripped out faces outwards.

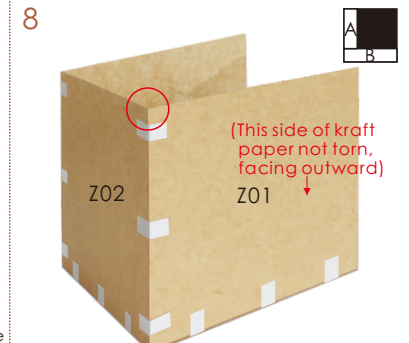

Use R03 to fix the junction of two pieces of plexiglass, (use transparent tape to replace R03)

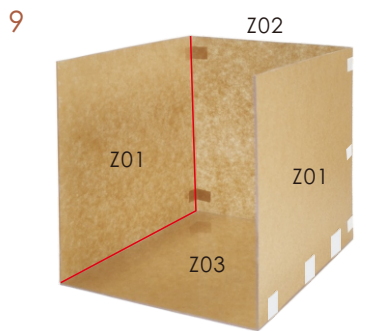

The junction of every two pieces of plexiglass needs to be fixed with R03 (to prevent the plexiglass falling off)

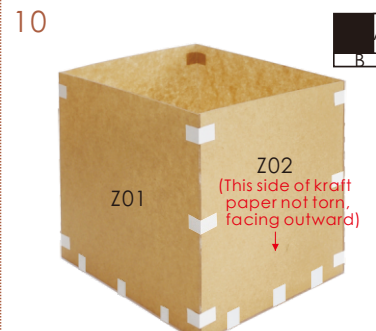

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

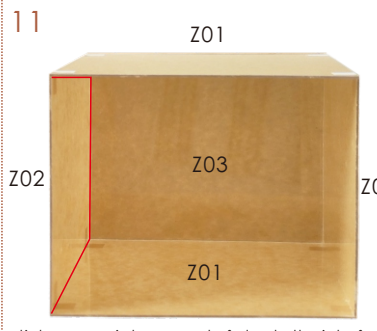

The junction of two pieces of plexiglass needs to be fixed with R03 (to prevent the plexiglass falling off)

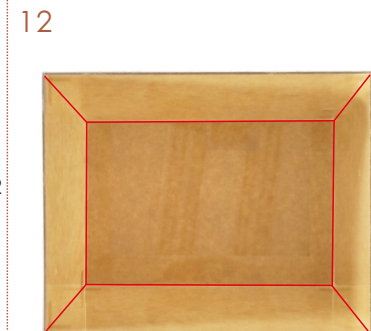

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

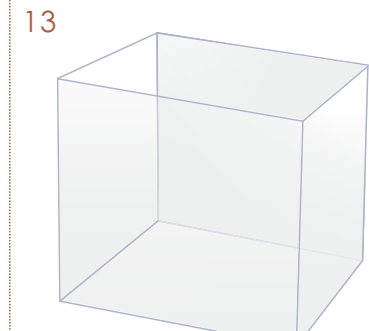

The junction of two pieces of plexiglass needs to be fixed with R03 (to prevent the plexiglass falling off)

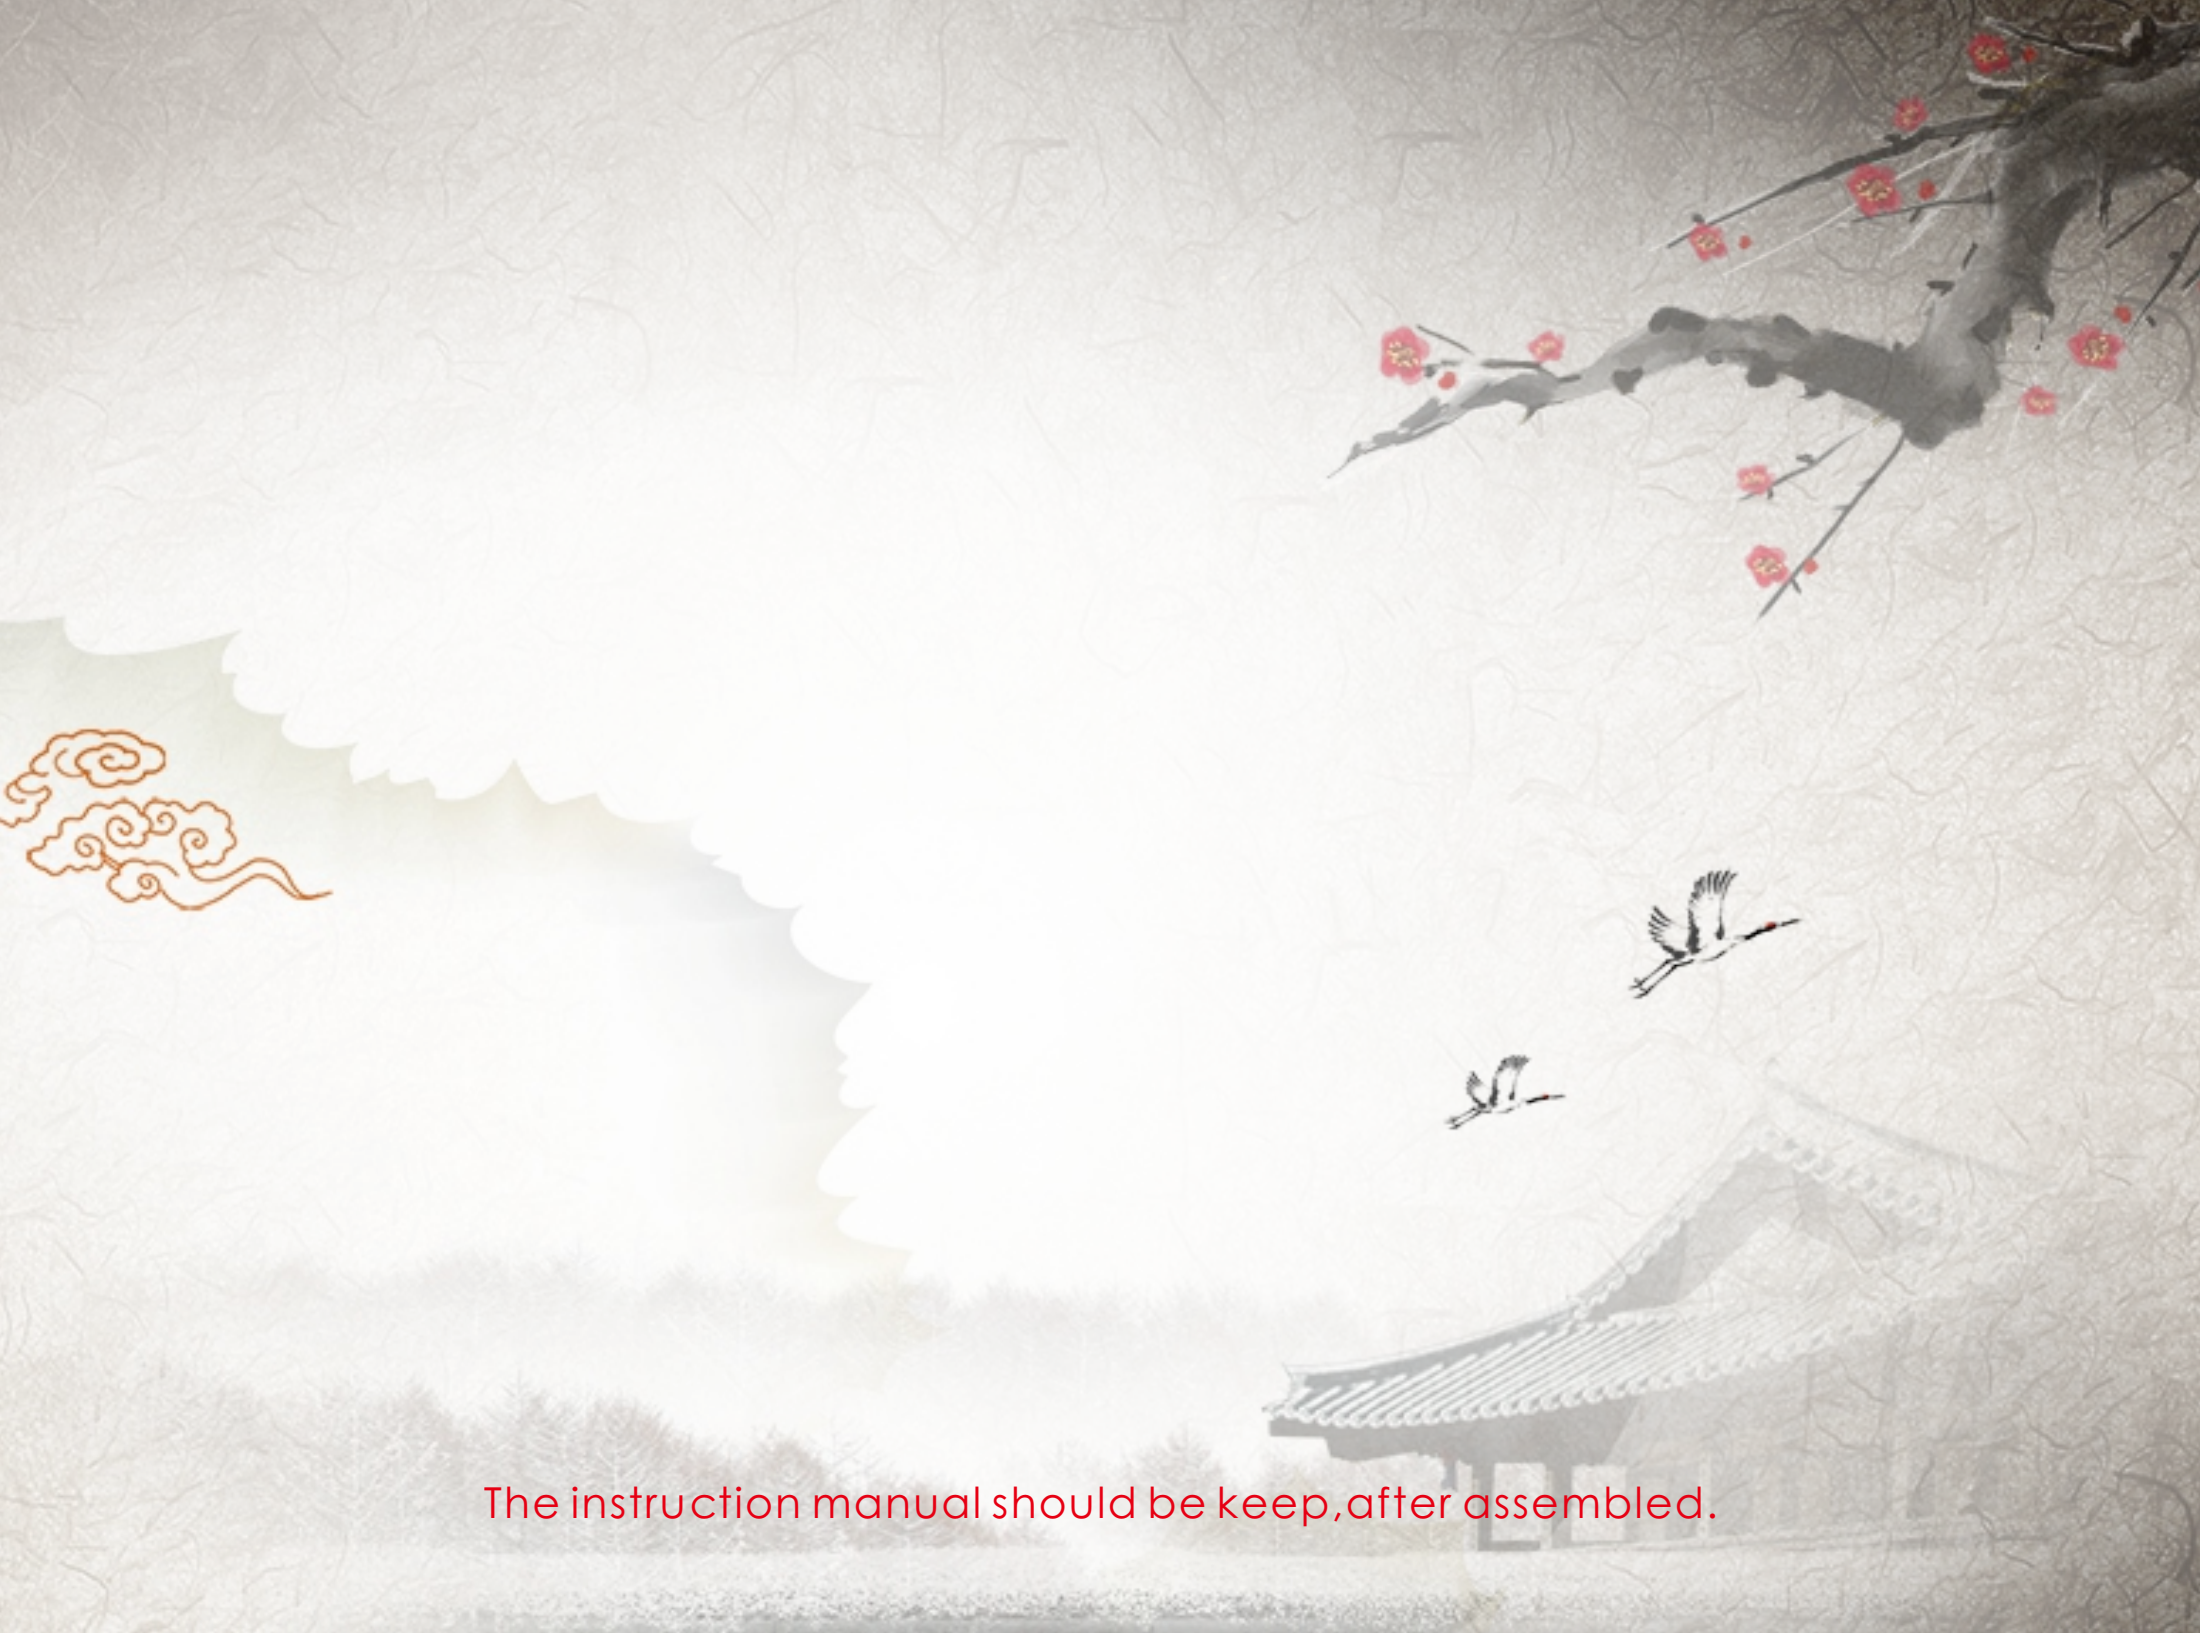

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

The dust cover need to be glued 8 interfaces

Leave it for 1 hour. After the glue dries out, tear off a layer of kraft paper outside the plexiglass

The instruction manual should be keep, after assembled.
